

WINNING THE FUTURE THROUGH INNOVATION

TUMBLE DRYERS

ECOVOLUTION
by DOMUS

The new state of the art in drying

DOMUS Ecovolution dryers move on with new features on efficiency and connectivity.

Our principles of constant innovation in technology result in a variety of technologically advanced and EFFICIENT machines.

All models have the big 7" touchscreen microprocessor TOUCH II, for great comfort and operation. A wide range: 11, 14, 18, 22, 28, 35, 45, 60 and 80kg. The three largest capacity models have as option the sliding door for easy loading and unloading.

The most efficient range: ECO-ENERGY with AIR RE-CYCLE, EFFICIENT DRY moisture control, THERMAL INSULATION, TOUCH II control, connectivity DOMUS CONNECT as standard as well as WET CLEANING system possibility.

Other ranges like DYNAMIC dryers (EFFICIENT DRY as option) and COMFORT (with M programmer) are versatile and even the ESSENTIAL range features the REVERSE DRUM and INVERTER as standard, for the most price-concerned markets.

STACK dryers have a wide range now: 11, 14, 18 and 22kg models. The new HEAT PUMP - ECO-ENERGY range offers the greatest energy saving features and the advantage of no need of exhaust.

All ranges can be used as OPL or COIN (except ECO ENERGY) by simply making a slight modification in the coiner or connecting them to a central pay or to IOT.
